MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Civilian Training Developer (TD) Positions

1. Requirements to develop and maintain training products for Stryker, Operation Iraqi Freedom, Operation Enduring Freedom, Future Forces, and the Contemporary Operational Environment continue to grow while the training development workforce continues to shrink. Since it is extremely unlikely we will receive additional TD authorizations, we must protect current TD TDA positions and fill them with personnel who have the required skill sets, especially your GS-1750 Instructional Systems Specialist positions.
2. CG TRADOC has approved stabilizing GS-1750 Instructional Systems Specialist positions to ensure the situation will not deteriorate further. During upcoming TDA revisions, request you protect these positions. When vacancies occur, ensure GS-1750 positions are not recoded to another GS series (e.g., 1712, 301, etc.) or moved to support other functions.
3. By 15 Jul 04, request you provide via email to Ms. Linda Brooks, DSN 680-5725, brooksl@monroe.army.mil, a POC to provide subsequent GS 1750 update information.
